## HIGHLIGHTS

- **Consistent with the previously announced objective to make a major project acquisition, the company continued to review several operating and near development base and precious metal projects during the quarter.**

Eastern Iron Limited (ASX: EFE) is pleased to report on activities undertaken during the quarter ended 30th September 2016.

### NEW PROJECT SEARCH

As reported in the previous (September 2016) quarter, Eastern Iron is actively reviewing opportunities to acquire a substantial near development or operating resource project for base or precious metals.

Several projects have been evaluated both within and external to Australia however the buoyant market conditions, particularly for precious metal projects, has created a highly competitive environment to secure quality projects. Nevertheless with the continued support of its major shareholders the company remains confident of securing a viable project.

### NOWA NOWA IRON PROJECT

Little work has been undertaken on the Nowa Nowa project during the quarter. However, the Company will continue to monitor conditions in the global iron ore market to determine when work on the project can recommence.

### FORWARD PROGRAM

#### Development Projects

The Company expects to continue evaluating new project opportunities during the next quarter.

## FINANCIAL POSITION

Total exploration and evaluation expenditure for the quarter was \$29,000. The cash balance at the end of the quarter was \$1,284,000.
