## HIGHLIGHTS

- **Acquisition of the Polish Cobalt Project in progress.**
- **Electromagnetic survey at Nowa Nowa Copper Project completed.**

Eastern Iron Limited (ASX: EFE) is pleased to report on activities undertaken during the quarter ended 31 March 2018.

### ACQUISITION OF HIGH GRADE POLISH COBALT PROJECT

The Company is in the progress of acquiring the Przecznicza Cobalt Project located in Lower Silesia, Poland, which was announced on 22 December 2017.

### NOWA NOWA TENEMENT

The Company completed an electromagnetic survey of the Three Mile Prospect, comprising a 500m x 200m loop. The survey has revealed a response which is coincident with part of the magnetic high and a significant intersection of copper mineralisation in existing drilling.

However, due to the proximity of the transmitter loop, the response is dominated by other effects from the loop itself and conducting surface material, which make the response very weak.

Further field works will be considered for the Nowa Nowa Copper prospects in the coming months.
