

DRILLING SET TO COMMENCE AT TRIGG HILL PROJECT

Highlights

- **Site Preparation works to be completed by next week**
- **Drilling expected to commence at the first half of September**

Eastern Resources Limited (“Eastern Resources” or the “Company”) is pleased to announce that WA-based drilling contractor, PX Drilling, has been secured to undertake an initial program of approximately 2,000 metres of Reverse Circulation (RC) drilling. This program will target lithium rich lithium bearing pegmatites at the Trigg Hill and East Curlew prospects on the Trigg Hill Project in the Pilbara.

The aim is to test a number of vertical and low angle lithium caesium and tantalum (LCT), pegmatites to obtain an understanding of zonation and lithium mineralisation.

Site preparation works commenced on 17 August and are expected to complete by next week with 30 drill pads for the upcoming drilling program. PX Drilling are expected to mobilise at the early of September following drilling activities.

Mapping and rock chip sampling will continue in areas previously not covered.

Executive Director Myles Fang commented:

“Surface sampling and mapping has been successful in locating extensive LCT pegmatites at Trigg and East Curlew.

“Initial RC drilling of a number of pegmatites will give us early indications of the lithium potential of the pegmatite swarms on the Trigg Hill Project”

Trigg Hill Lithium-Tantalum Project

The Trigg Hill Project is located in East Pilbara, Western Australia and approx. 75km SE of Pilbara Minerals Ltd.’s Pilgangoora Lithium mine.

The Trigg Hill mine is an old tantalum and tin mine operated during 1960s and early of 1980s. Significant number of pegmatite outcrops mapped over an area of 3km strike by up to 1.2km in the Trigg Hill Lithium-Tantalum Project including the East Curlew Lithium-caesium-tantalum (“LCT”) pegmatite, which extends for at least 1,800m.

The Company executed a binding Heads of Agreement to acquire 100% interest in the Trigg Hill Project (refer to the Company announcement dated 4 August 2021).
